EXPERIENCE

UX DESIGN TECHNOLOGIST • GE DIGITAL • NOV 2016 – PRESENT

As UX Design Technologist, I work with a core digital technology and innovation team that horizontally services the many verticals and divisions of GE. The design and development of department agnostic internal software, to digital solutions for GE manufacturing plants and partners make up the bulk of my duties. Secondary responsibilities include the evolution and growth management of the GE Predix platform (PaaS) and its various components.

LEAD UX DESIGNER • THYSSENKRUPP MATERIALS, NA. • FEB 2016 – NOV 2016

Working with international teams involved with brand identity, while implementing new agile roadmaps. SAP/ERP data integration with web and native internal applications for B2B & B2C solutions. Focused on user profiling, behavioral maps, flowcharts, interaction & UI design, front end development, and conducting design sprints for multi-tiered projects.

UI/UX DESIGNER • REAL INTEGRATED • NOV 2014 – DEC 2015

As a client-facing designer, I guided the information gathering and design process for a number successful of web applications. Using aspects of both Agile and Lean UX principles, I ensured consistent design language and brand alignment, while maintaining focus on user center design.

WEB DESIGN SPECIALIST • CDK GLOBAL • APR 2013 – OCT 2014

Provided original content in adherence to OEM (GM, GM Canada, Chevrolet, Buick, Cadillac, Lexus, Hyundai, Volkswagen, BMW and Ford) guidelines. Specialized in Agile UI/UX solutions between OEM and Tier One companies, and maintaining hybrid mobile application integrity. In-House CMS/CRM bug reporting and solutions team.

WEB MANAGER • RUTH OLSON PHOTOGRAPHY • MAR 2010 – MAR 2013

Responsible for developing the voice for all aspects of the company's online presence. In addition to writing, editing, and proofreading site content, I also worked closely with the creative team to maintain standards with regard to new development.
